Adhvait (AJ) Jadav

Full-Stack Developer • Shopify Specialist
Calgary, AB • +1 (250) -299-5013 • adhvait.jadav@gmail.com • adhvaitjadav.com • LinkedIn

SUMMARY

Full-stack developer with hands-on experience building and shipping production web applications using Next.js, Node.js, and Shopify Liquid, including internal tooling now used across Shopify's advisor team. Strong background in API-driven systems, problem solving, performance optimization, and owning features end-to-end, from planning to deployment. Comfortable in fast-paced environments and focused on clean, scalable, real-world solutions.

EXPERIENCE

Shopify Support Specialist | Shopify | *Jul 2025 - Present • Remote - Calgary, AB*

- Support merchants globally on storefront, checkout, Liquid, payments, and app issues, consistently high CSAT using AI-assisted workflows.
- Built and shipped two tools upon participating in Shopify's internal 3-day Hack-days:
  - Dark Mode for Shopify Admin: internal theme toggle adopted by the team
  - AI Advisor Swarm: autonomous agent that drafts merchant replies, surfaces account history, and retrieves relevant internal Help Center articles live during chats; deployed across the entire Shopify team.
- Walked new team members through AI-assisted workflows, tooling, and supporting best practices during onboarding.
- Used Shopify's internal diagnostic AI, sentiment tools, and risk prediction systems daily alongside Claude, ChatGPT, and automation macros.

Full-Stack Developer | Hodder Construction | *Sep 2024 - Feb 2026 • Hybrid - Kamloops, BC*

- Sole developer across 5 production projects: owned full SDLC from planning to Digital Ocean deployment, achieving 99% client satisfaction.
- Stack: React, Next.js, Node.js, MongoDB, PHP, MySQL, Tailwind CSS, WordPress. Achieved 40% faster page load times with React + Tailwind component architecture.

Delivered:

- Hodder Construction: company website • hodder.ca
- Rentals Kamloops: property listings with PDF generation • rentalskamloops.ca
- The EV Store: e-commerce platform, 500+ products, Stripe, MongoDB • theevstore.ca
- Cars By EV Store: Tesla pre-owned listings with dynamic pages • cars.theevstore.ca
- Employee Timesheet App: React + Node.js dashboard with PDF export • employee.ca

Web Developer (Intern) | Raven Reads **|** *Feb 2023 - Sep 2023 • Hybrid - Kamloops, BC*

- Shopify theme customization using Liquid and Dawn, built reusable sections, custom JS/CSS components, and third-party app integrations.
- Connected Shopify APIs for products, collections, carts, and accounts; optimized images and scripts to improve page performance.

Technical Support Specialist | Teleperformance (Apple Support) **|** *Oct 2023 - Aug 2024 • Remote*

- Promoted to Mac Specialist tier. Maintained 95% CSAT and 100% CRM logging rate across high-volume remote support.
- Resolved hardware, software, account, and payment issues across iPhone, iPad, Apple Watch, and Mac via Safe view remote access.

Sales Manager | The Mobile Shop **|** *Feb 2022 - Sep 2022 • Burnaby, BC*

- Led team of 6: grew year-over-year sales 17%, achieved 48% outbound close rate. Improved Google rating by 0.5 star through coaching and service quality.

PROJECTS & VENTURES

Furtraits | Founder & Developer | furtraits.com

- Founded and built a digital + physical pet portrait business: Storefront, checkout, and order flow built end-to-end. Running paid acquisitions across TikTok, Meta, and Google Ads.

Chilly Moose | Shopify Developer | chillymoose.ca

- Designed and developed a production Shopify storefront in a developer cohort. Theme customization, page optimization, and component architecture using Liquid and JavaScript.
